Click on Lesson 1 to access the videos

Please watch the following videos and complete the quiz once finished.

To watch the videos simply click the play button and double click the clip to bring it to full screen. If you need to stop and come back to it, just make note of the time you're up to and when you login again you'll be able to skip to where you were up.

If you experience any problems with the play back of any videos, first try refreshing the page or logging out and back in (usually it's just an intermittent hiccup). If you still have problems, double check that your internet connection is fast enough and that there aren't other people online at home slowing things down. If you're still having troubles after trying those, contact us for help and we'll do our best to figure out what's going wrong.
