

About Dr. Corradino

Dr. Michael Corradino, Doctor of Acupuncture and Oriental Medicine, and Founder/CEO of Neuropuncture LLC, graduated from Pacific College of Oriental Medicine, Cum Laude, in 1995 with his Masters in Traditional Oriental Medicine after studying molecular biology at Seton Hall University. Dr. Corradino completed the first "China Masters Tour" with Alex Tiberi, in which he traveled throughout different provinces studying with masters at different hospitals and Chinese medicine schools.

Michael is a published author, and international speaker in the area of neuroscience and acupuncture, and he is currently involved in ground breaking research with electro-acupuncture and stem cell proliferation, spinal cord injury, and oncology.

Michael's passion, devotion and belief in the Integration of Traditional Chinese Medicine and Western Medical science contribute to his success.

Registration Form

I WISH TO ENROL IN:

- SYDNEY: 5th - 7th May 2018
Venue: TBA
- MELBOURNE: 11th - 13th May 2018
Venue: Southern School of Natural Therapies

Times: 9:30am - 5:30pm CPD: 13 Points

COURSE FEES

	EARLY BIRD*	REGULAR
Prof. Assoc. Member	<input type="checkbox"/> \$745	<input type="checkbox"/> \$845
Full Rate	<input type="checkbox"/> \$795	<input type="checkbox"/> \$895
Student Rate	<input type="checkbox"/> \$645	<input type="checkbox"/> \$745

* Early bird expires 4 weeks prior the course

Neuropuncture

Presented by
Dr. Michael Corradino

3 Day Workshop

SYDNEY: 5th - 7th May 2018
MELBOURNE: 11th - 13th May 2018

Neuropuncture is a ground-breaking Acupuncture system that unifies the modern understandings of neuroscience with the traditional practice of Acupuncture.

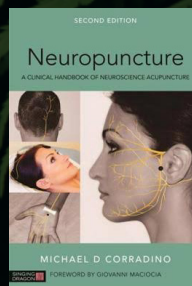

It is an evidence-based system which utilises and manipulates the body's neurophysiology and is used to treat pain, orthopaedic conditions, and internal medicine conditions.

Neuropuncture is an extremely effective approach to modulating the nervous system. From targeting specific receptors for the release of specific neurohormones, in resetting dysfunctional visceral autonomic reflexes, to depolarizing excited overstimulated nerve roots for pain management. It combines the research of electrical acupuncture's effects on specific neural receptors, while maintaining the holistic traditional TCM model.

Course Information

At this 3-Day workshop, practitioners will learn the concepts, protocols and applications of Neuropuncture as developed and taught by Dr. Michael Corradino. Michael will introduce his revolutionary model by firstly explaining the mechanics of how Acupuncture works within a neurophysiological framework. By understanding how Acupuncture works within this framework, practitioners can then learn how to target and manipulate different neuro-pathways for different therapeutic actions. The Neuropuncture system points and clinical protocols will be explored thoroughly and the applications of electro-acupuncture techniques will also be covered.

The goal of this workshop is to give the practitioner tools to communicate, and understand, exactly how acupuncture can be best explained, and how to utilise this information into a specific method for maximising reproducible clinical outcomes. Neuropuncture prepares the practitioner with evidenced-based neuroscience protocols that instill confidence in their effectiveness, and empowers the practitioner with the communication skills to explain what they are doing.

More Details

DAY 1: NEUROPUNCTURE FOUNDATION

- Introduction
- History
- Demystifying qi and TCM
- Review of basic neuroanatomy
- Neurobiology of pain
- NEUROPUNCTURE'S foundation:
 - 5 neurophysiological mechanisms of acupuncture
 - 5 Neuropuncture Treatment Principles
 - 5 Neuropuncture Electro Techniques
 - Case studies

DAY 2: RESEARCH: BODY/ AURICULAR

- Research (past to present, what's missing)
- Electro acupuncture: physics, parameters
- Electro Neuropuncture
- IAREA current research (Kelly Protocol for healing spinal cord lesions)
- 23 Neuropuncture points
- Demo/practice
- Neuropuncture Auricular
- Neuropuncture Electro Auricular
- Case studies

DAY 3: SCALP/ CASE INTEGRATION

- Neuropuncture Scalp: EA
- Case integration
- Using a pain upon pressure (PUP) scale
- Review foundations (neuro-mechanisms, treatment principles, electro acupuncture)
- Protocols, cases, and demo/ practice
- Internal medicine: 2 cases
- Mental health: 2 cases
- Orthopedic/ Pain management: 3 cases
- Demonstration
